B.S. DEGREE
30 HOURS OF BIOLOGY MINIMUM (9 or more courses)
Effective for Freshmen entering Fall 2013 and for all other students declaring a Biology Major as of Fall 2013 (6.1.13)

► 141 Foundations of Modern Biology I, with Laboratory
► 142 Foundations of Modern Biology II, with Laboratory

► One Biology course from each of the following areas:

<table>
<thead>
<tr>
<th>COLUMN A</th>
<th>COLUMN B</th>
<th>COLUMN C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cell &amp; Molecular</td>
<td>Organismal</td>
<td>Ecology &amp; Evolution</td>
</tr>
<tr>
<td>223 Developmental Biology (3)</td>
<td>205 Comparative Vertebrate Anatomy w/Lab * (5)</td>
<td>241 Evolutionary Biology (4)</td>
</tr>
<tr>
<td>250 Cell Biology (3)</td>
<td>240 Organismal Form &amp; Function (3)</td>
<td>247 Ecology (same as ENVS 247) (3)</td>
</tr>
<tr>
<td>264 Genetics: A Human Perspective (4)</td>
<td>360 Intro. to Neurobiology (same as NBB 301) (3)</td>
<td>329 Coastal Biology w/Lab* (4)</td>
</tr>
</tbody>
</table>

* = Fulfills the upper-level laboratory requirement.

► Four (or more) electives (12 hours minimum) from the biology course listings. 100-level biology courses and Biology 497R (Supervised Reading) do NOT count toward the biology major as electives.

► Chemistry and Physics requirements, as follows:
Chemistry 141 and 142 with Labs, Chemistry 221 with 221 Lab (or Chemistry 221Z/226L and Chemistry 222Z/227L), and Physics 141 (or 151) with Lab. Freshmen who have AP credit for Chemistry 141 and take Chemistry 221Z/226L will be exempt from taking Chemistry 142 for the biology major.

► Math requirements (choose one option): Math 115 and 116, OR 4 hours AP credit for AB Calculus + Math 112/Z, OR 4 hours AP credit for AB Calculus + Math 116, OR 8 hours AP credit for BC Calculus. Oxford transfers can also fulfill Math requirements with Math_OX 107 + Math_OX 111 OR Math_OX 111 + Math_OX 112. Math_OX 110A + Math_OX 111 together can count as Math 115. Students with only Math_OX 107 should take Math 115 and 116 or discuss other options with their Biology advisor.

NOTES:
► Biology 141 and 142 are prerequisites for all upper level courses in biology.
► A "C" average is required in the major.
► All courses required for the Biology major must be taken for a letter grade.
► Only one cross-listed course that originates in another department may be counted for the biology major. These courses are: Biol/Psyc 320, Biol/Psyc 325, Biol/Chem 330, Biol/ENVS 345, Biol/Chem 346L, Biol/ENVS 349, Biol 356/NBB 358, Biol/NBB 361, Biol 385 (Phys 380/NBB 370), Biol/Psyc 440, and certain Biol 285, 385, and 485 courses (see course atlas). This also applies to certain ECS 490 courses with biological topics (check with the Biology Dept.).
► 2-credit hour courses may be taken for elective credit and may count as half of an elective; however, additional biology courses will be needed to fulfill the 12 hours minimum of elective credit required.
► ONE upper-level Biology laboratory course will be required for the Biology major.
► 4 credit hours of Biology 495 (Honors Research) OR Biology 499R (Undergraduate Research) OR Biol_OX 399R (Undergraduate Research) may be counted as elective credit and an upper-level lab only after completion of the second semester of 495, 499R, or Biol_OX 399R.
► An AP score of 4 or 5 on the Biology AP exam will exempt students from Biology 141 only. Biology 142 will still be required.
► All Biology majors are required to meet with their Biology advisor EVERY SEMESTER during pre-registration. An enrollment hold will be placed on the student’s OPUS account each semester until he/she has met with his/her Biology advisor for advising.
